

## TOLD OPERATION WAS ONLY HOPE

Augusta Woman Takes Tonic Instead and Gains Fifteen Pounds in Weight.

"I refused to submit to an operation which I was told was my only hope, but took Tonic instead, and I not only recovered my health, but gained fifteen pounds besides," said Mrs. J. M. Ga. wife of a well-known wood and coal dealer.

"For over a year," she continued, "I suffered from stomach trouble and other disorders and was gradually growing worse. My head ached terribly most all the time, the pain in my right side was so agonizing that I could hardly stand it, and my back ached constantly. My appetite failed and what little I did eat seemed to poison my system and make matters worse. I was so nervous and miserable that I could hardly sleep and so weak and rundown that I could only hope to live in an operation."

"I decided to try Tonic first, and my improvement was so rapid that it surprised me. Those headaches are gone, the pain in my side and back left me, my appetite is fine and I seem like a child at night. That weak and rundown feeling has disappeared. I feel stronger and better all the time."

Tonic is sold in Memphis exclusively by Welch Pharmacy and Warrick Drug Co.

## How to Peel Off a Weatherbeaten Face

It's really a simple matter to renovate a face soiled by dirt, wind or cold. Ordinary mercurized wax, used like cold cream, will transform the face and complexion into one of snowy whiteness and velvety softness. It literally peels off the outer shell of surface skin, but so gently, gradually, there's no discomfort. The worst skin does not come off in patches, but only in tiny particles, leaving no evidence of the treatment. The younger, healthier under-skin forming the complexion is one of captivating loveliness. One ounce of mercurized wax, to be had at any drug store, is enough to renovate a faded, chapped, pinched, freckled, or sallow skin. Apply before retiring, washing it off in the morning.

## Tenth District Club Women Here for Annual Conference

Mrs. William Howard Barker, chairman, presided with her usual grace and skill, over the annual conference of the federated women's clubs of the Tenth Tennessee district, on Monday at the Nineteenth Century club. Thirty-four delegates were registered at the opening of the session at 10 o'clock, representing the 14 clubs of the district, which are affiliated with the Tennessee Federation of Clubs. After a word of greeting, charmingly given, Mrs. Barker introduced Mrs. Arthur S. Buchanan, state president, who gave the delegates a greeting from the Tennessee federation, with a greeting also from the Nineteenth Century club, as its president.

Mrs. Buchanan said in part: "It gives me great pleasure to welcome you, ladies of the state board and chairmen of the Tenth district of the Tennessee Federation of Clubs, to our city, to the Nineteenth Century club and to our hearts today."

"I do more appreciate your presence at this meeting because I feel that together we shall gather inspiration for further effort and more extended usefulness. I think that all present appreciate the splendid work of the federation and realize that it is a force for good in the state, and to serve it is a responsibility. The slogan has always been progress—a progress that will help and uplift."

"We have met that we may reason together, that we may know each other and that we may discuss plans and consider action, and that I may have your advice, your counsel, the contact with your bright, trained minds, the stimulus of your enthusiasm and resourcefulness."

"The special effort of the federation has been service—and such it should be. A applaud it. I am in full sympathy with all movements that have for their object the betterment of the race. This is the weightier matter and should be first considered."

"There is a question in the mind of many that this federation might find some reasonable solution to this much-vexed question that would be fair and equitable."

"The membership drive also must be looked after. Every club in the state, every woman in the state, should belong to this organization and count as a part of its usefulness, possibly, we have not stressed enough the general, less obvious side of helpfulness. Might we not have somewhat of music, somewhat of social pleasure? For beauty is usefulness."

"The child of the mother that is led to look away from the gloom and shadows to the blue skies, the mountain tops, the water and the rocks, has gained something beyond and above materiality. They come to know the touch of fancy the thrill of pleasure at the beauty that lies along the way."

"There is much to be learned, many problems to solve, so many that we may well stand in awe before the responsibility confronting us. But I am persuaded that we shall go forward undaunted, confident, heart beating in cadence with spirit lifting 'our eyes into the hills from whence cometh our help,' so the work of the Tennessee federation will go forward."

A beautiful and cordial greeting was given the delegates and state board members by Mrs. R. L. Jordan, vice-president of the Nineteenth Century club and in a graceful little speech, Mrs. Jeff. Meek, of Whitehaven, responded on behalf of the delegates to the welcome so graciously extended to them. The minutes of the last meeting, read by Mrs. E. G. Williamson, who served as secretary.
